Guyver Advocacy

It doesn´t matter! Get the hell away!
Have you been protecting us...?
How ...?
That´s the only reason!
So the only way I could ever have my revenge is by keeping an eye on you!
If Sho Fukamachi is still alive, he´ll definitely come for you...
Aptom...
I´d have no reason to go on!
But if you fell in the hands of Chronos...
And by that, Guyver One would be defeated...
Before he gets here...
Hurry! Just get away from here...

How did you get messed up like this...?
What on Earth has happened?
If Chronos discovers that you are still alive...
You fool! What do you care?!
Now I recognize that facial scar!
But why..?
I have seen him hanging around your appartment several times!
Always in that leather jacket and with sunglasses...
Get the hell out of here!

So you are still alive!
You are Tetsuro Segawa ...right?
Oh...
I got to meet these interest-ing people!
Heh heh... I ought to thank you, Aptom.
Because the person in front of you,
Ha! that's already in the past!
killed all of my brothers!
GWAAA!!
Are you ZX-Tole?
One of the Hyper-Zoanoid Five...

Who..?
Too late...

What on Earth?
Hmm?
What is this?

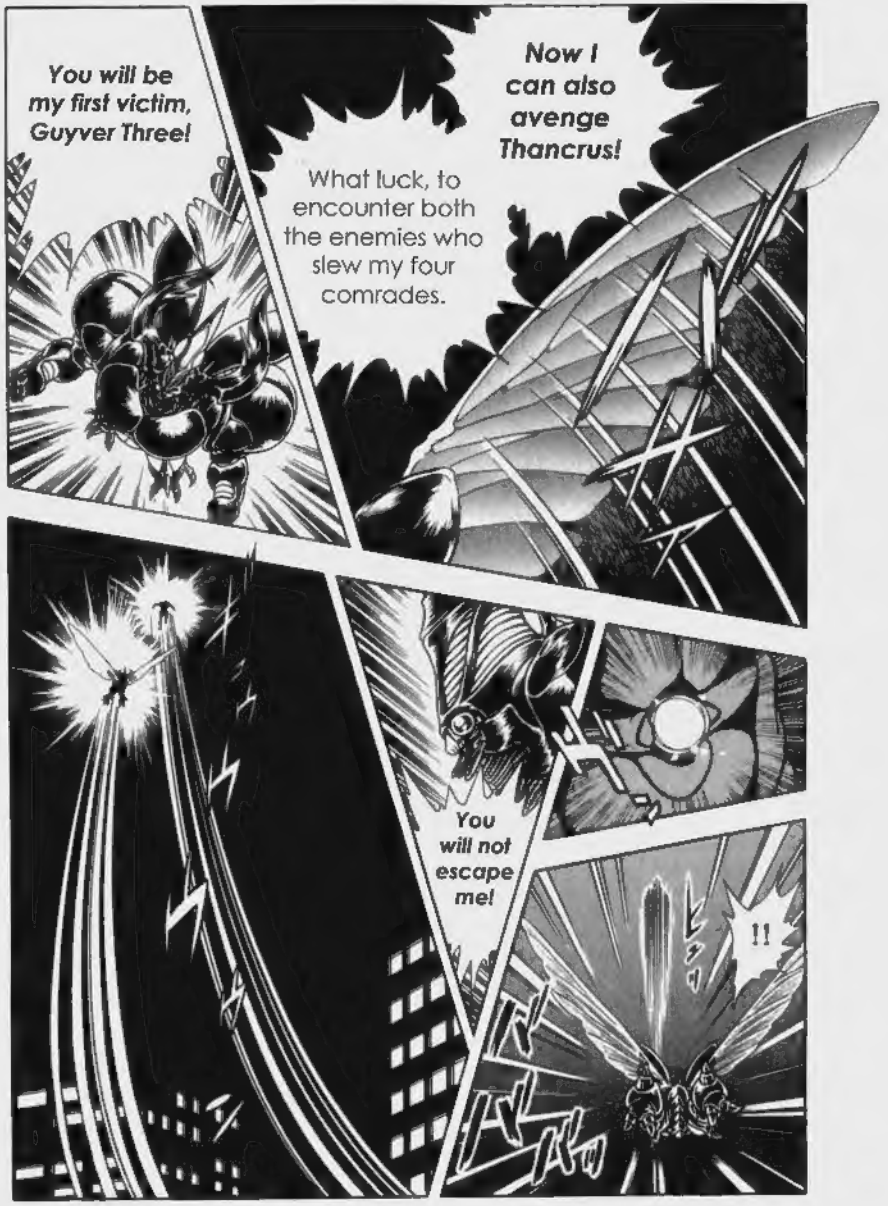
No!
Three of my comrades have been eaten by you....
Now I will have my revenge!
Hnng ...
!?
Die, Aptom!

Is in there...
Fuka-machi...
Mr. Makashi-ma, Sho is not with you!
It can't be...
is inside that?
Sho...
Makashima! Where have you been all this time?
We'll talk about that later, Segawa.
First, I will settle with this dog!
Haha... you still talk big as usual!
but I am very happy, Guyver III, that you're still alive...

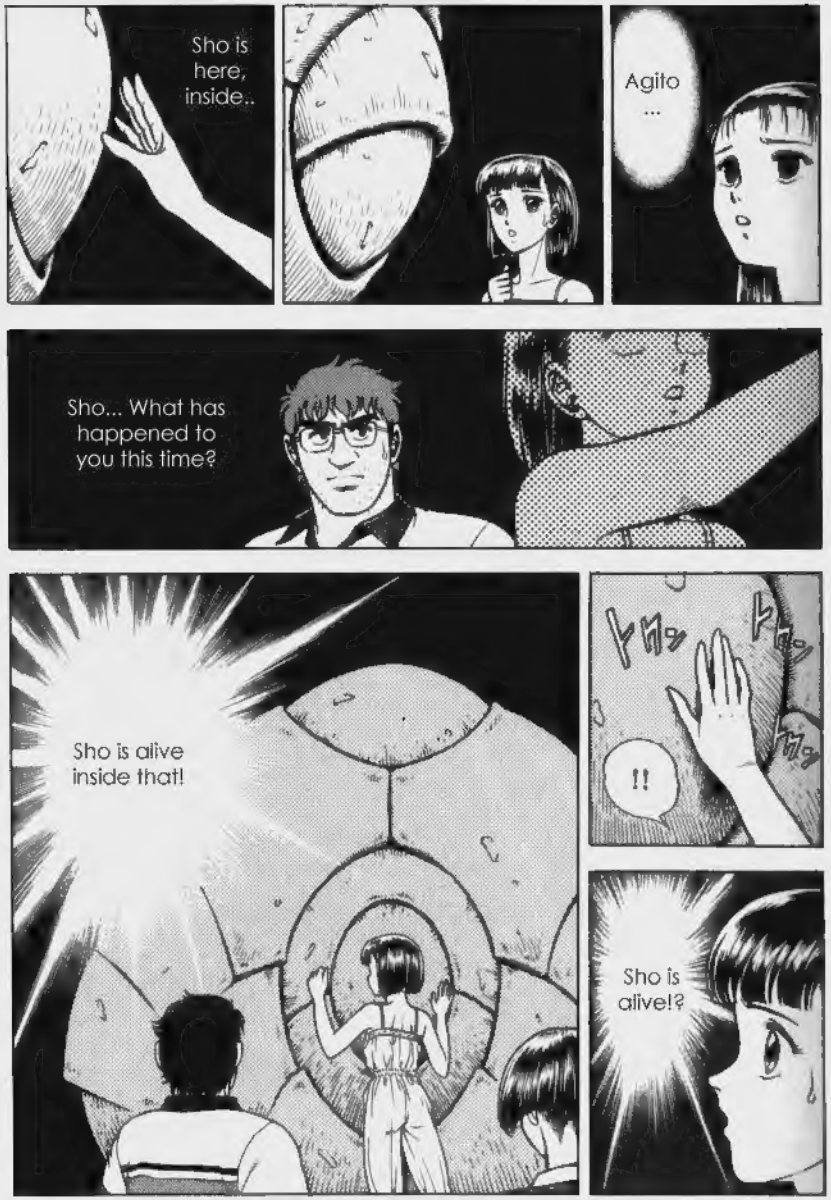
AGITO!
AH!

I am in Tokyo..? In Shin-juku...
Maka-shima?!

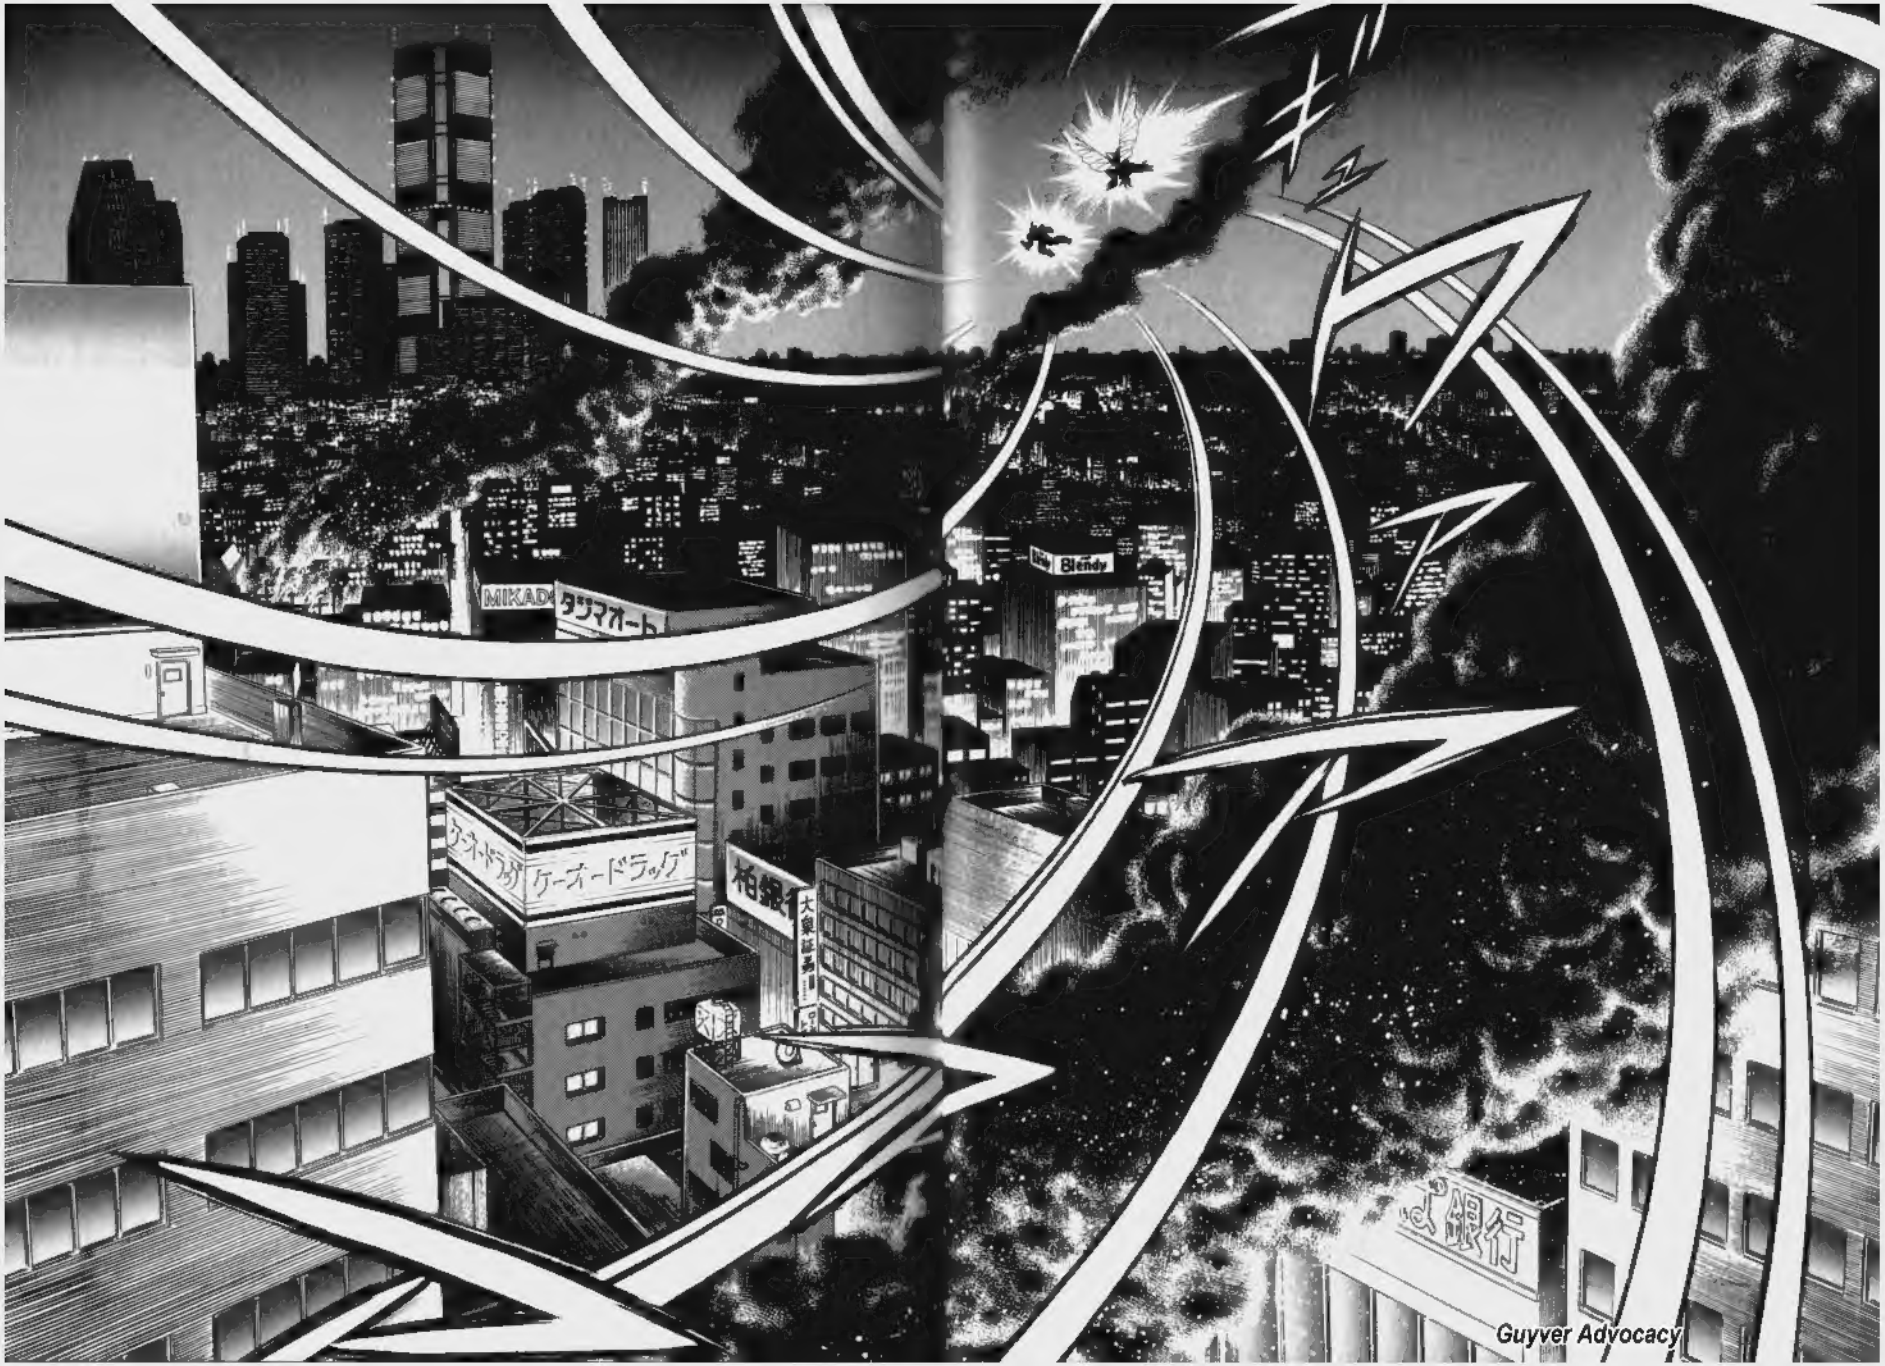
and now I find myself here...
Thanks to the will-power of Fukamachi, I travelled through another dimension...



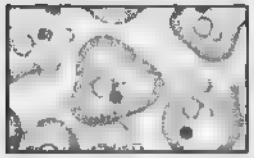
You will be my first victim, Guyver Three!
What luck, to encounter both the enemies who slew my four comrades.
Now I can also avenge Thancrus!
You will not escape me!
!!



Sho is here, inside..
Agito ...
Sho... What has happened to you this time?
Sho is alive inside that!
!!
Sho is alive!?

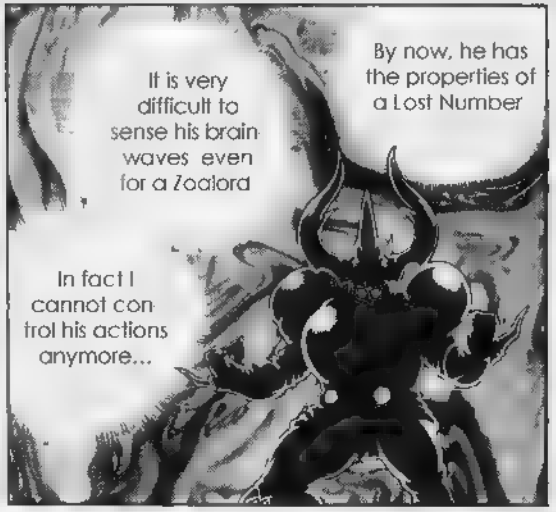


MIKADO
ケーオードラッグ
Guyver Advocacy



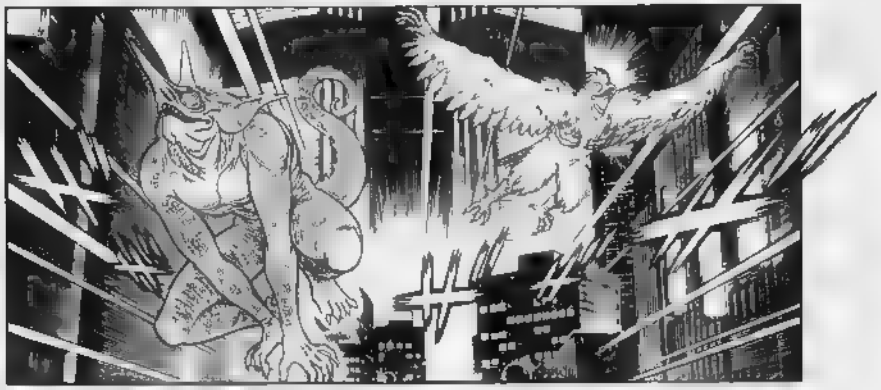
There is a risk he will go rogue, just like Aptom did

But... the cells of ZX Tole's body won't hold out much longer, due to the extreme manipulation they were subjected to...



It is very difficult to sense his brain waves even for a Zoalord
By now, he has the properties of a Lost Number
In fact I cannot control his actions anymore...

Send out reconnaissance Zoanoids
I want to know the situation on location
Yes sir!
call on the intelligence agency
He might live another two or three days he won't survive indefinitely like Aptom



Damn!
URGH!

I need an opportunity to fire the Megasmasher
Not talking so big any more, are you?
Shape up, Guyver Three

It's scared the hell outta me, even...
That ZX-Tole has become extremely poweful ..
Incredible not even Makashima can defeat him.
!!
Aptom?
Give me a hand. .

I don't plan on dying today...!
I'll give Guyver III his opportunity
What do you want to do?

Guyver Advocacy

The megasma sher was deflected?
Wha at?
He split the beam of the smasher with an electro magnetic arc
Un.

GRGH!
GHH...
Heh heh heh I finally got you
AGITO ?!
I dian't expect to have so much fun
UH...
AH...
How ever..

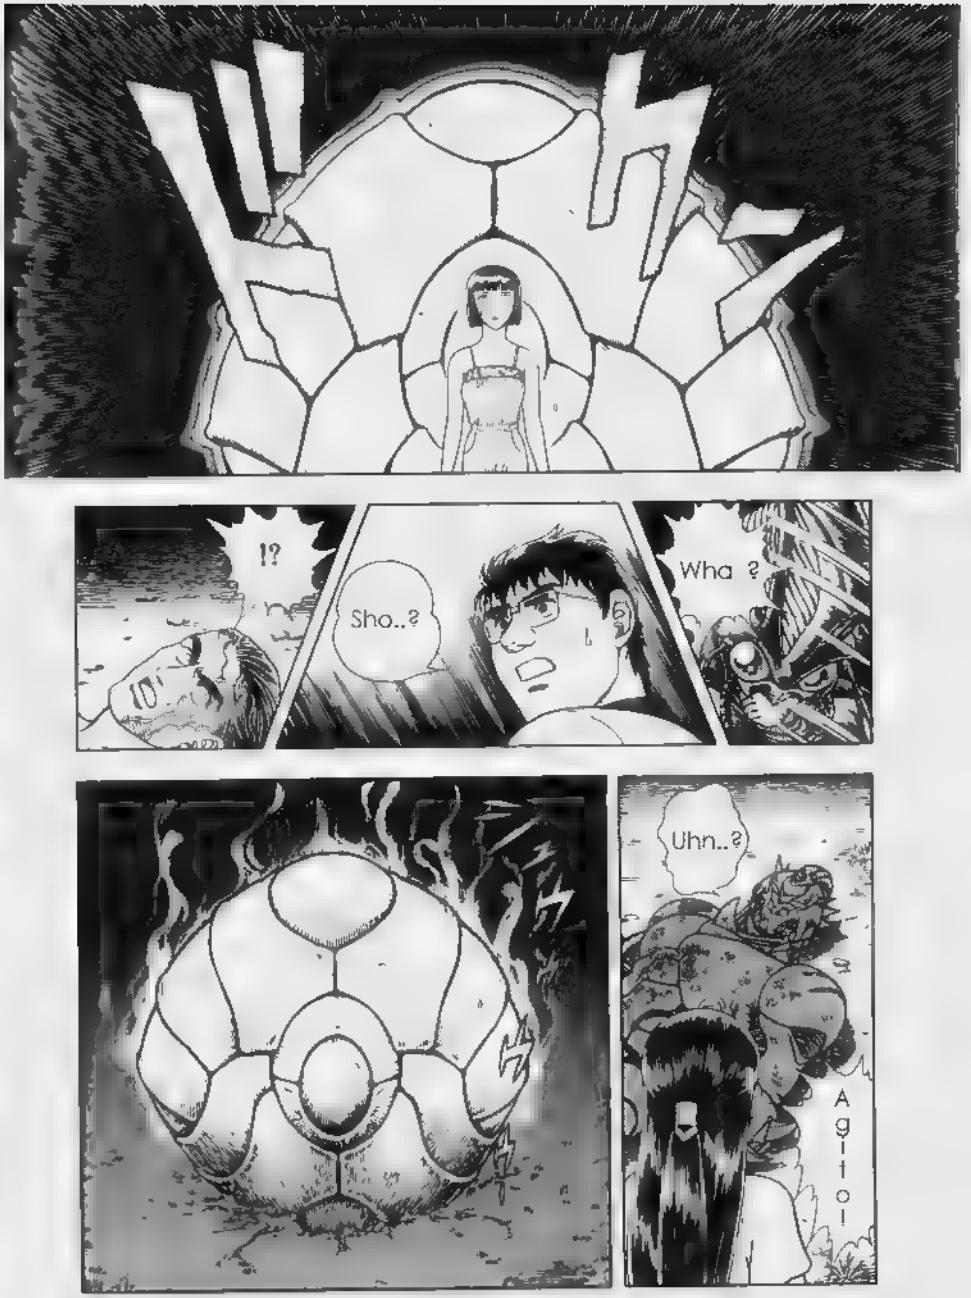
TIME TO END IT!!
NOO!

Agito.
Maka shima!
Agito
Agito
Please wake up
Now 'tis your turn!
URGH!

You´ll have to kill me first!
I won´t let you kill Agito!
No.
Sho... I beg you...
SHOOO!
Then you die with this worm!
Very well!

Hey Guyver having recieved that much damage and your sti not dead!
Tsk how pitiful
I need a Zoanoid to absorb. and soon!
I will slice you in half, as you did Thancrus!
R'ght then the coup de grace for you, Guyver Three
Shizu!
Move 't, girl .
or else ..
Sho. .!

That's not Guyver One ?
That's not .
What the hell



!?
Sho..?
Wha ?
Uhn..?
Agito!

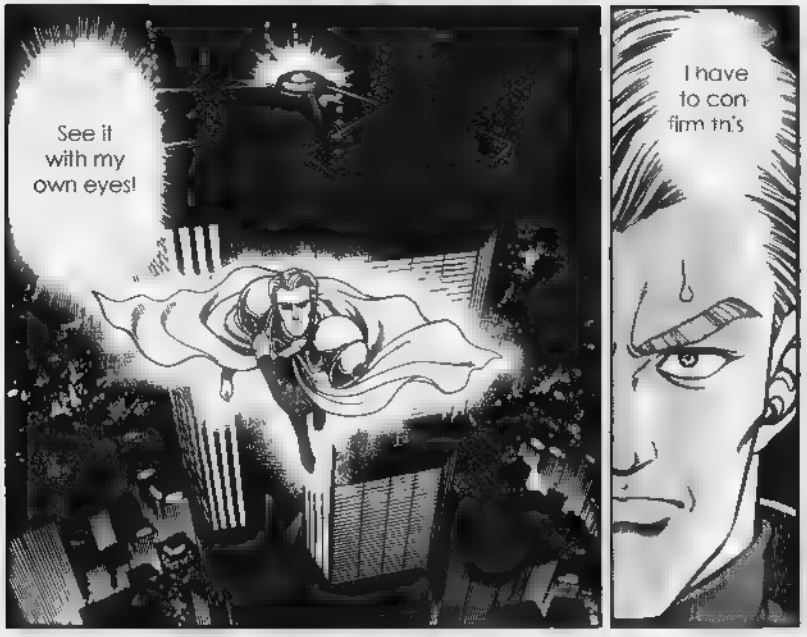
Guyver Advocacy

OH!!

Tsk
Take this!
I´l e iminate Guyver Three and Aptom in the same bow
I´ll de stroy that giant yet .
!!
Aaa hhh!

!!
A most there!
That Guyver can generate a force fie a?
What?! A force field..?
Uhh... Only one option ..!
!?

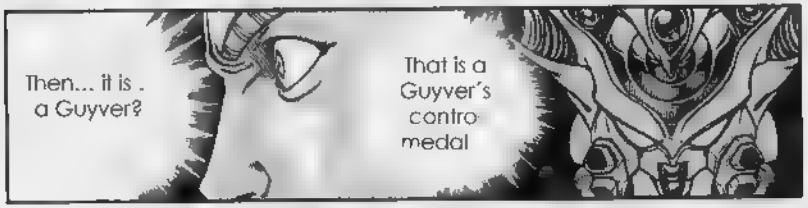
And then this form... completely different!
Impossible! The Guyver died on Mount Minakami



See it with my own eyes!
I have to con firm th's

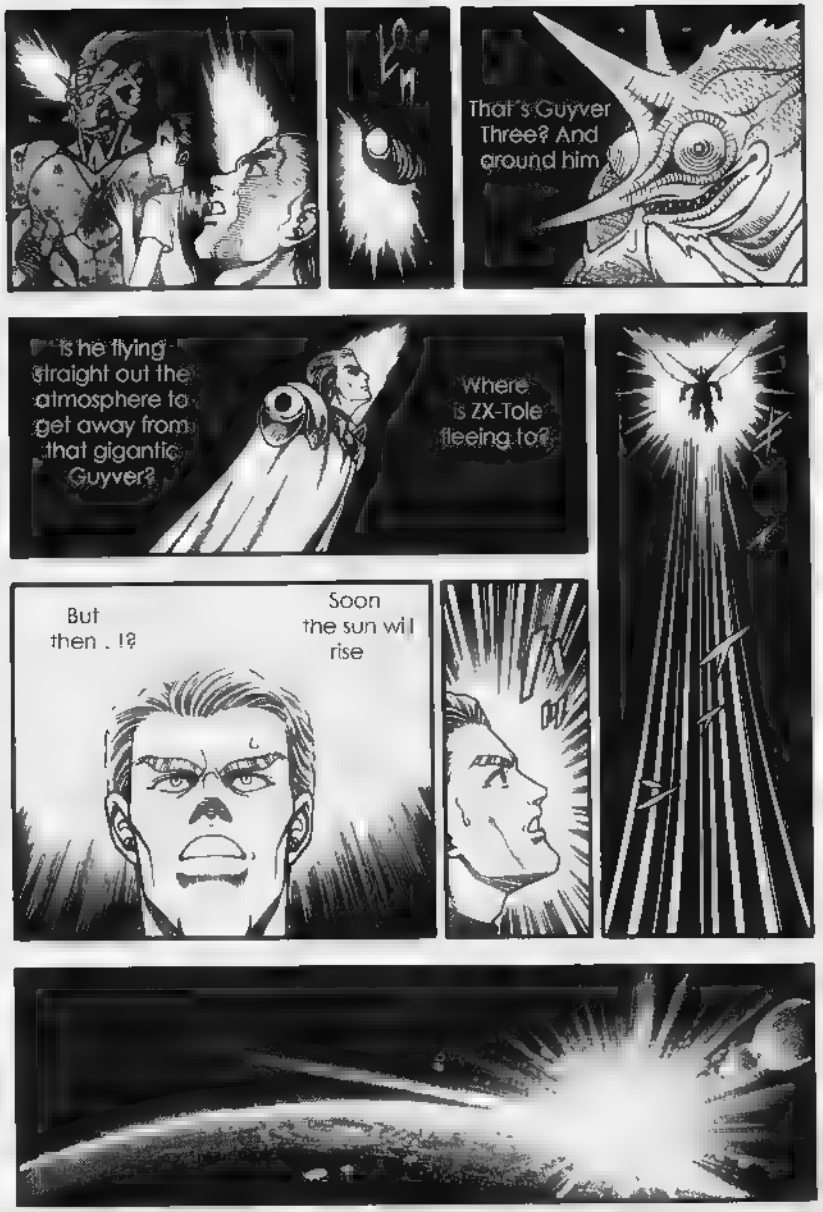
Could that be
What on Earth is that?

Is that Aptom?
No. . not him
!!



Then... it is . a Guyver?
That is a Guyver's contro medal

You don't mean to ?
ZX Tole
!!
You know what would happen if you used it here!
ZX-Tole, don't be crazy!

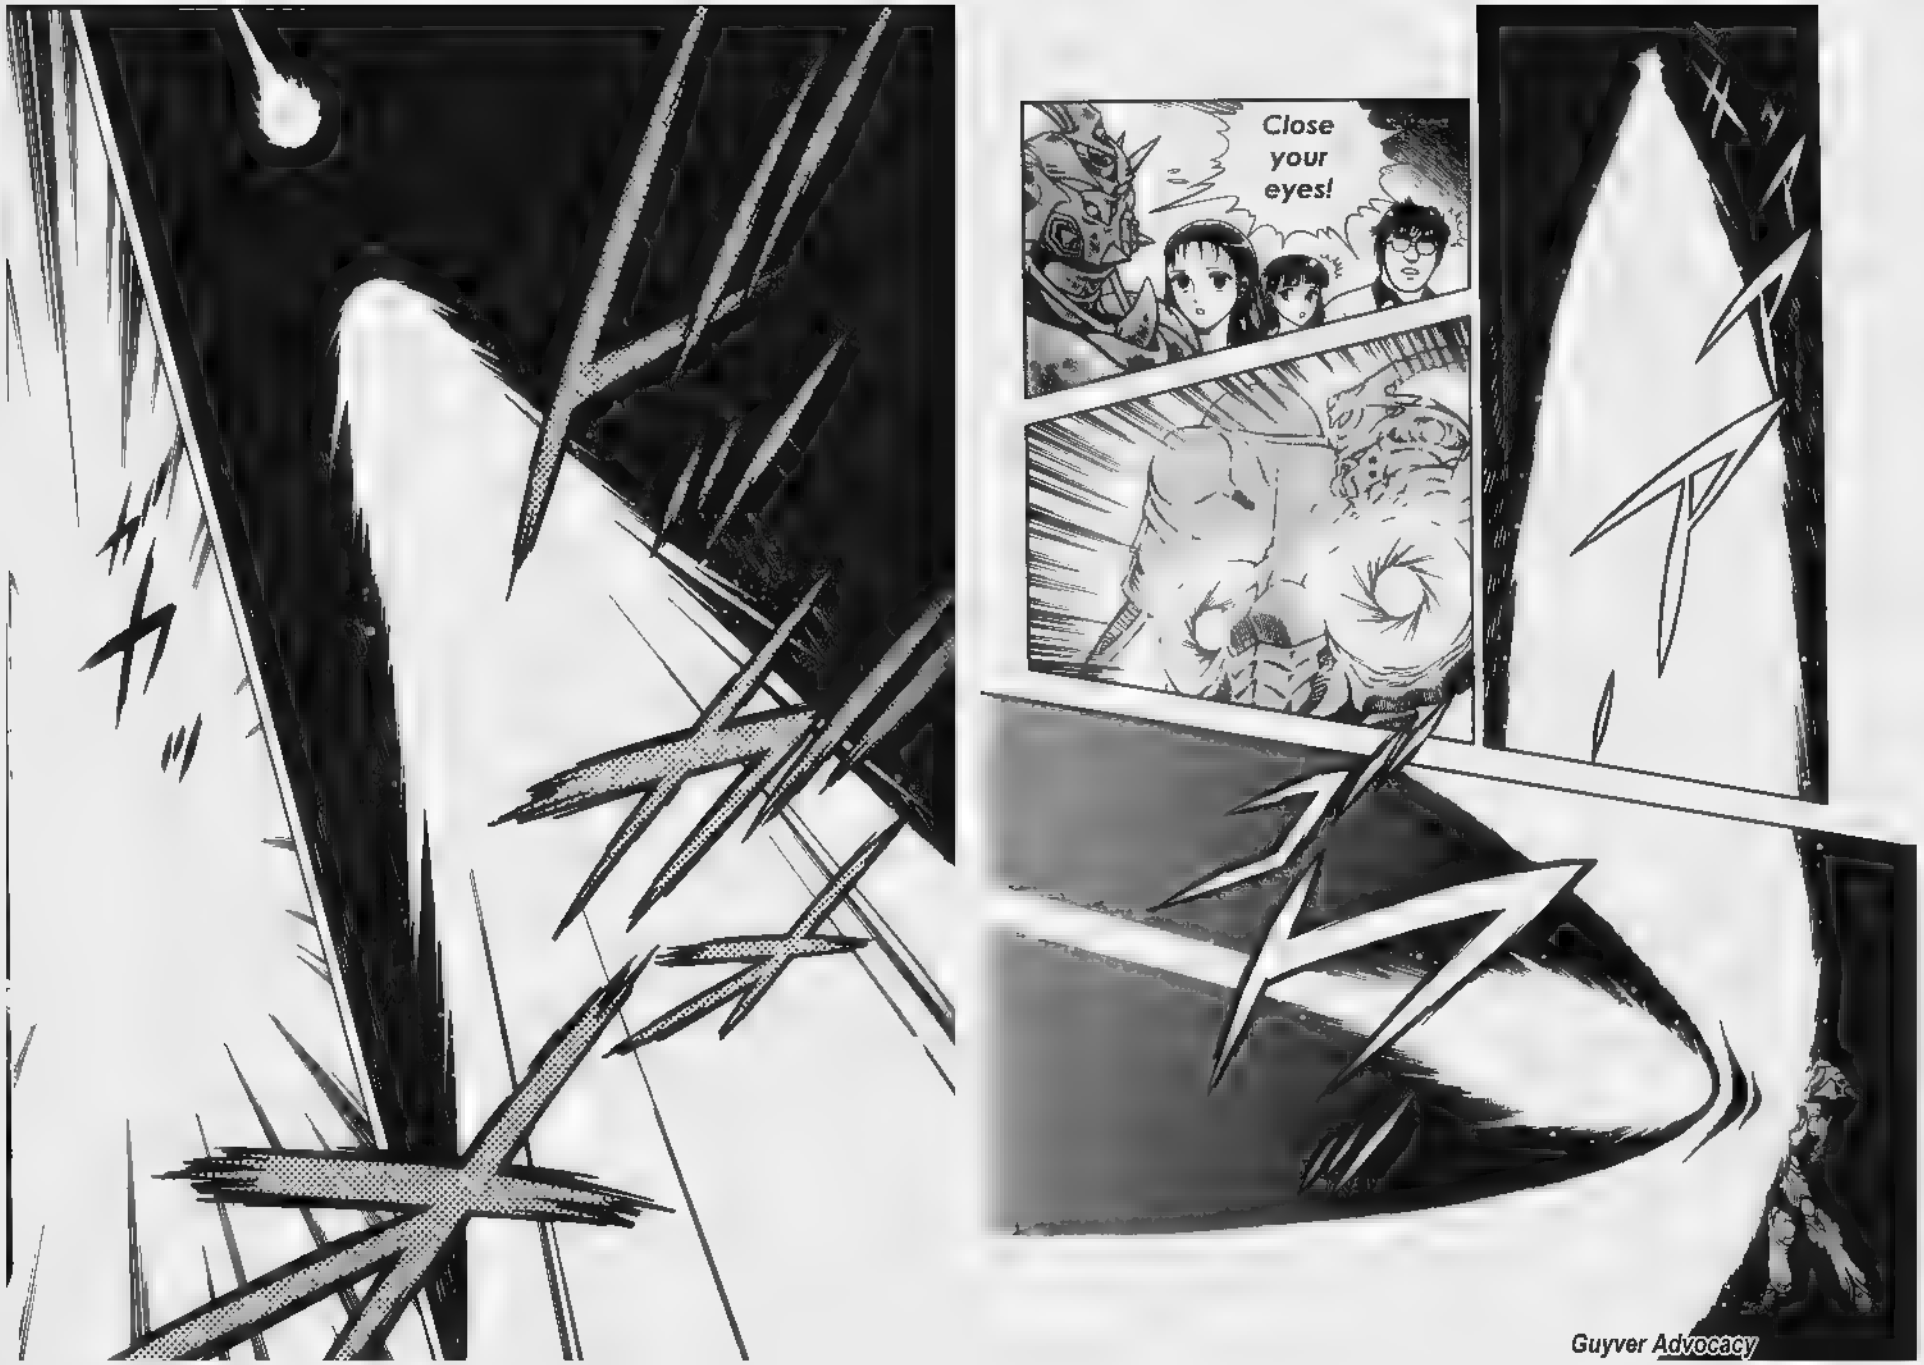


That's Guyver Three? And around him
Is he flying straight out the atmosphere to get away from that gigantic Guyver?
Where is ZX-Tole fleeing to?
But then . !?
Soon the sun will rise

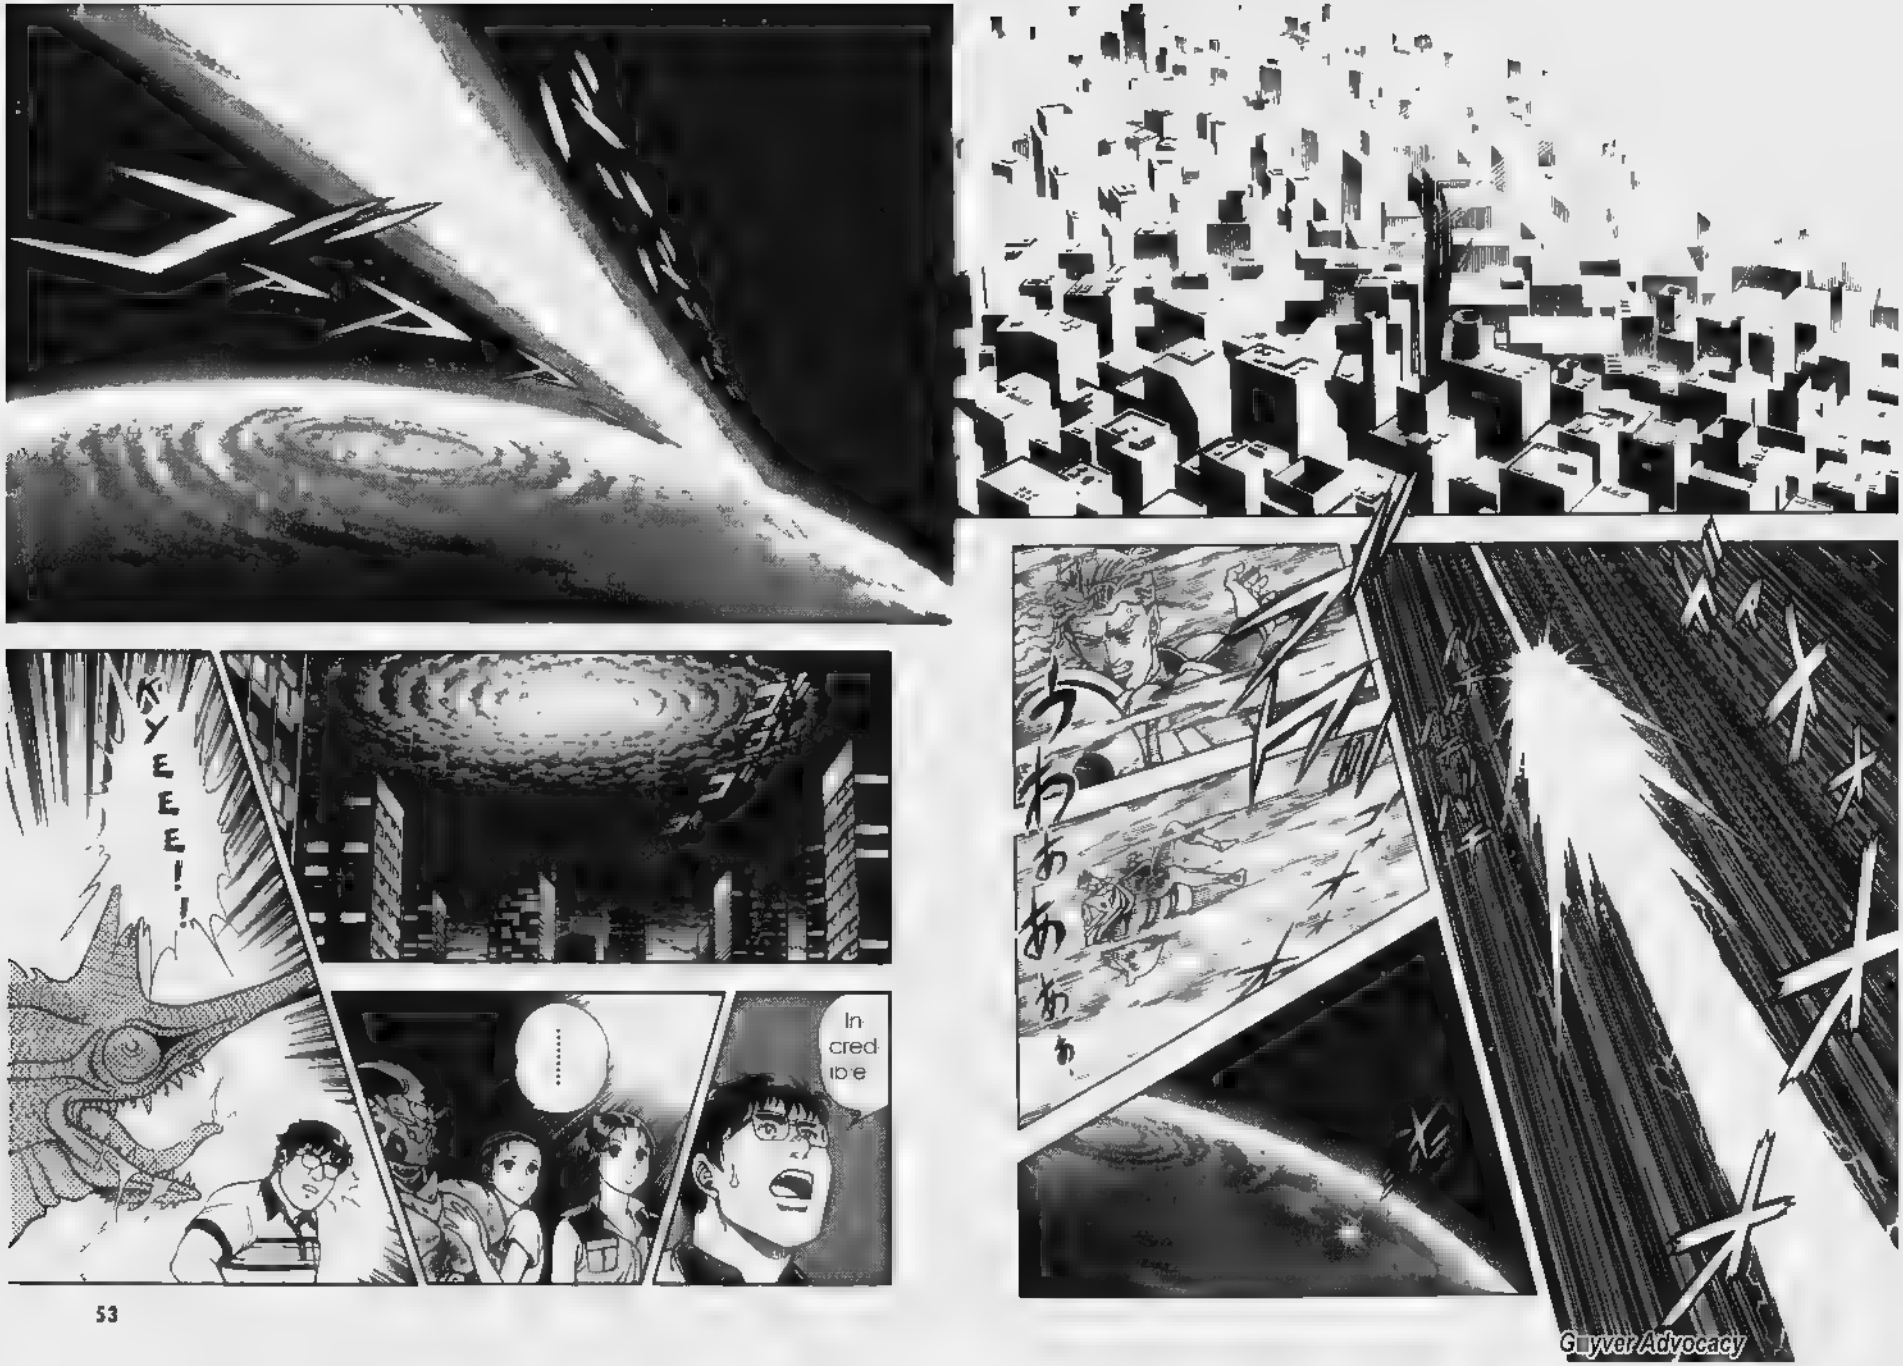
the Blaster Tempest!
I know very well ...
My final weapon.
Its fire-power is the equal of the Guyver's Megasmasher.
Firing a beam that potent would destroy me as well.
If I fire it it will not only vaporize Aptom and Guyver Three but also a lot of Tokyo.
If I charge it up with solar energy, its power would exceed a hundred million degrees centigrade.
better to go out with a bang!
But I won't live much longer anyway...

This is the end
Elegen
Darzerb,
Gaster
Thancrus
I will join you now

Sho
Ultimate Blaster-tempest!
I am ready!
Stop!



Close your eyes!



KYEEE!!
Incredible
Guyver Advocacy

So you've retracted that armor

It's been spying on us for a while
A Zo anoia?
Thanks, pal..
you're a rea ife-saver!
GA
GA
That virus ZX To e gave me inhibits my regeneration .
Aptom
One of these days, Aptom will come calling!
Warn Sho Fukama chi

第60話 深町晶の帰還
THE RETURN OF SHO

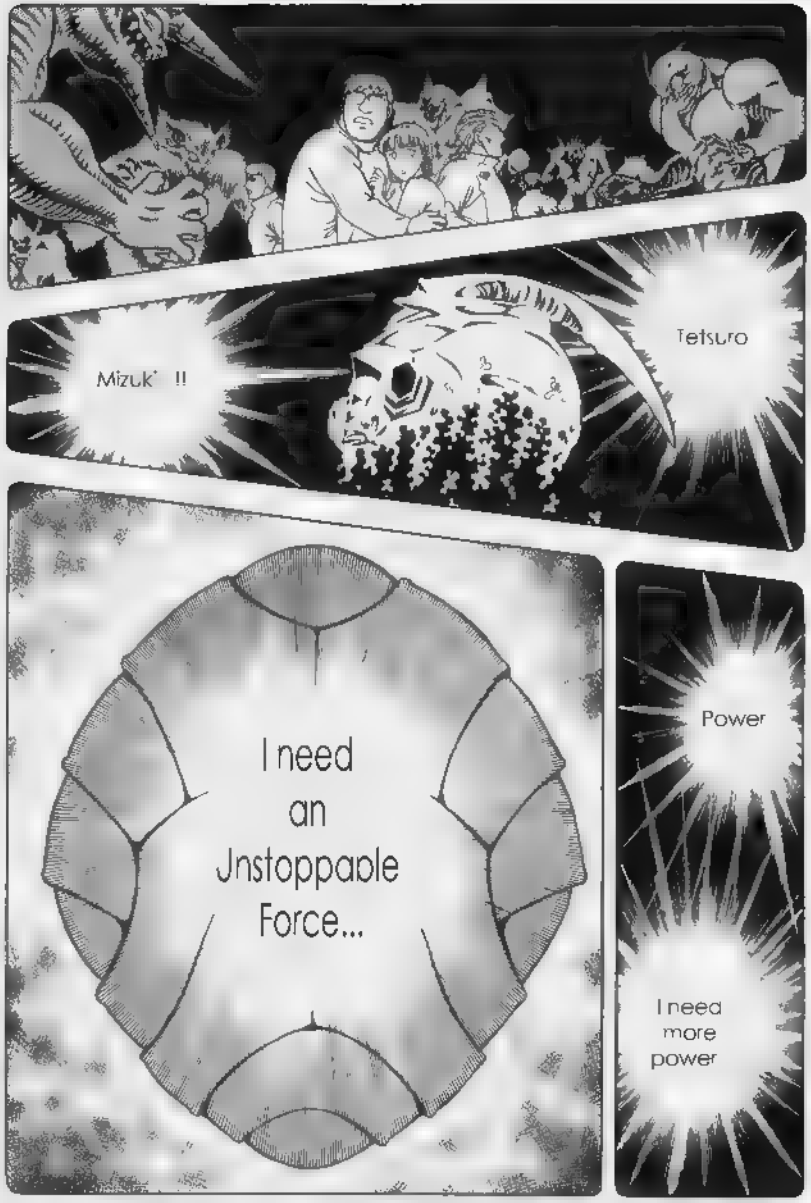
Welcome back!

Murakami
Makishima

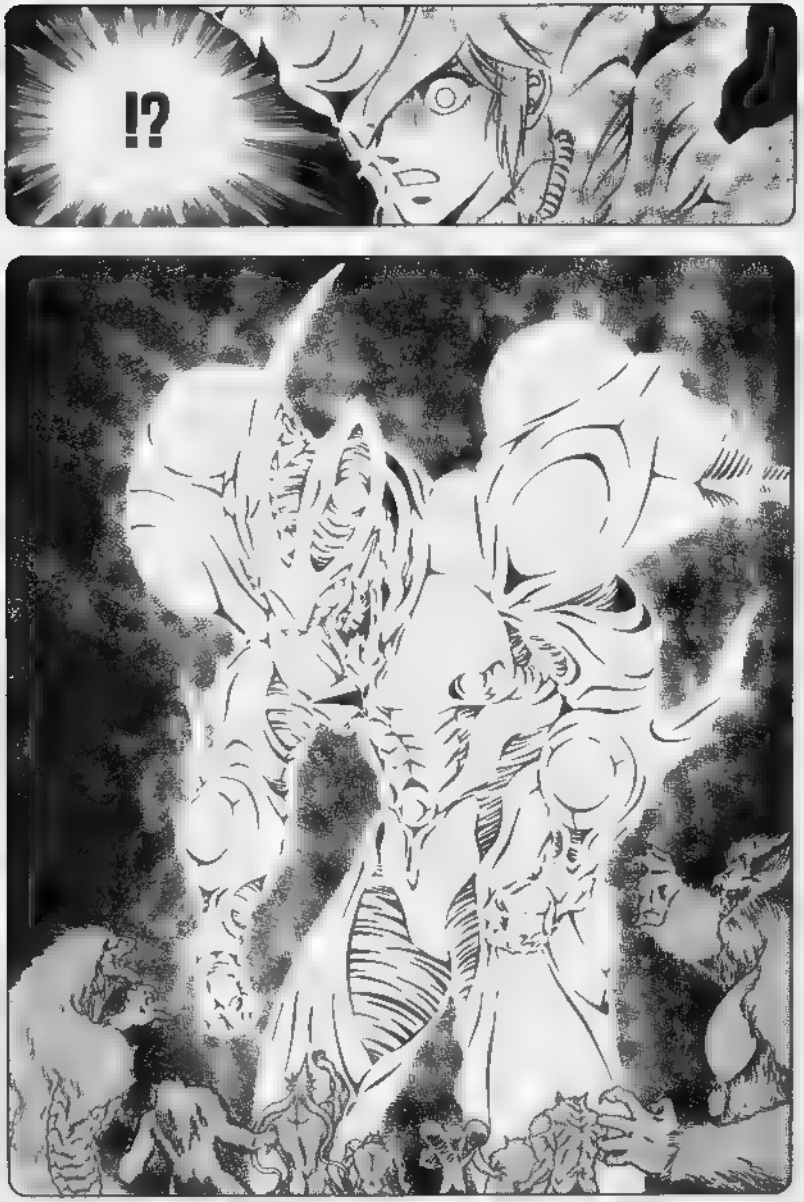
GYUOT!?

MURAKAMI. .
!!

Guyver Advocacy

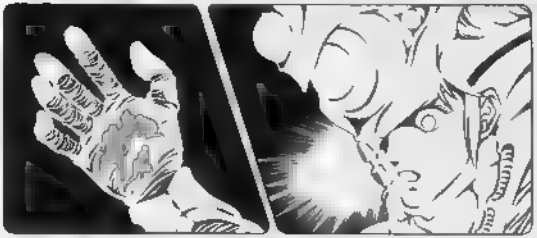


Mizuk' !!
Tetsuro
I need an Jnstoppable Force...
Power
I need more power



!?

Sho...
Sho!!



Sho
Sho...
SHO!!
Tetsuro
Mizuki?

at the last moment, it teleported us to a safe location.
The Relic sustained fatal damage.
That day a year ago
Eh?
Sure y that was your work Sho
to get us to safety.

However, you had been linked with the Relic through your control medal correct?
You were probably already unconscious then .
I believe your unconscious mind was still connected to it

Because the safe place we arrived at was Mount Narisawa
that was my theory

You thought of sending us to a safe location when the situation became too dangerous...

Mount Narisawa!

Where we found the unit-G for the first time.
Exactly!

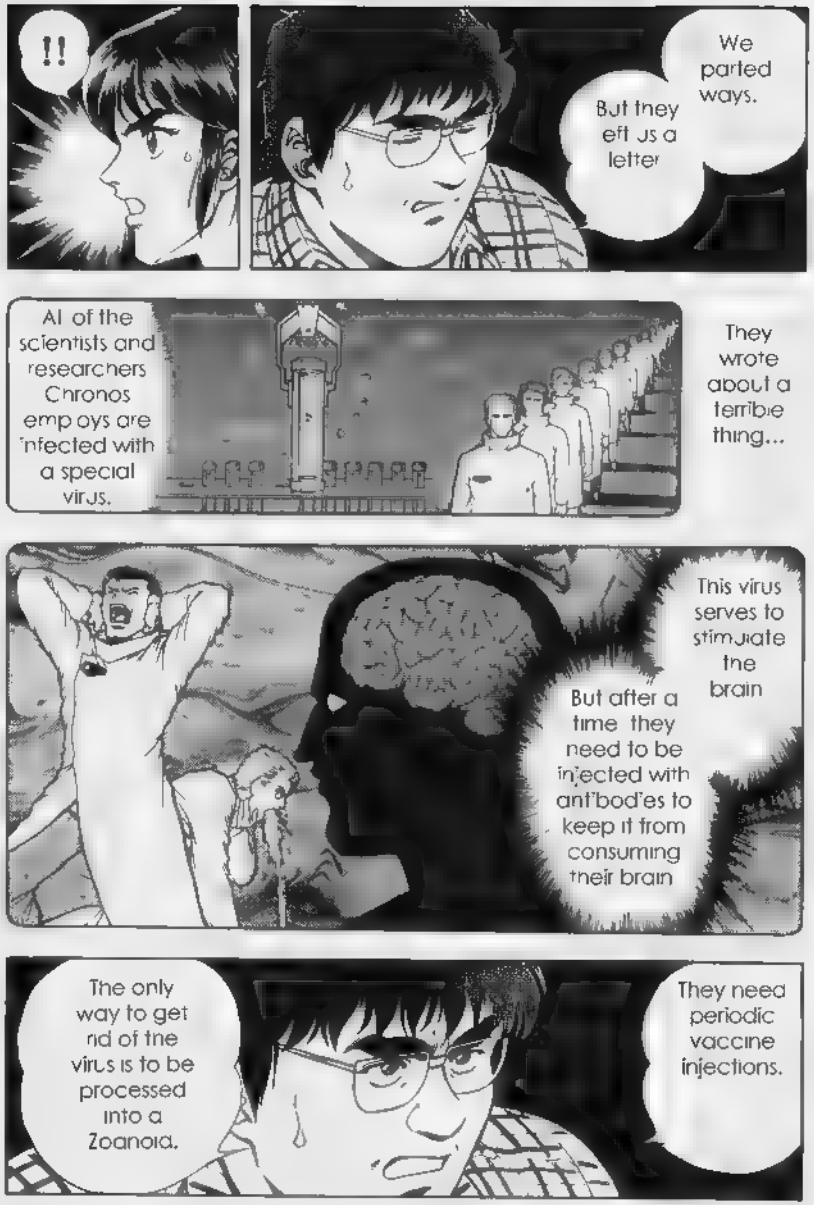
and also for returning alive!
I want to thank you, Sho..

Mizuki and were sure you had survived.

By the way, where are Hayami, Torii and all the other assistants of mr. Odagiri?
Oh ..

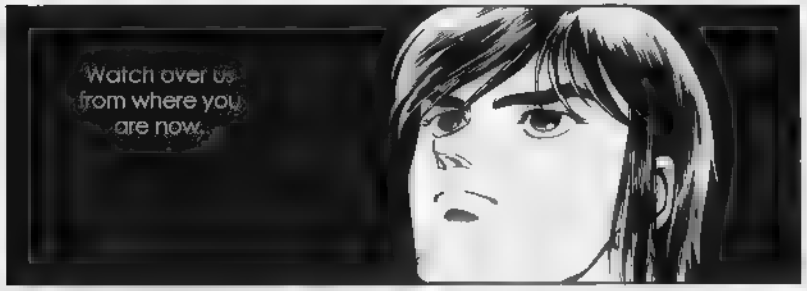
.....
Do they live nearby?

Tetsuro



!!
We parted ways.
But they left us a letter
All of the scientists and researchers Chronos employs are infected with a special virus.
They wrote about a terrible thing...
This virus serves to stimulate the brain
But after a time they need to be injected with antibodies to keep it from consuming their brain
They need periodic vaccine injections.
The only way to get rid of the virus is to be processed into a Zoanoid.

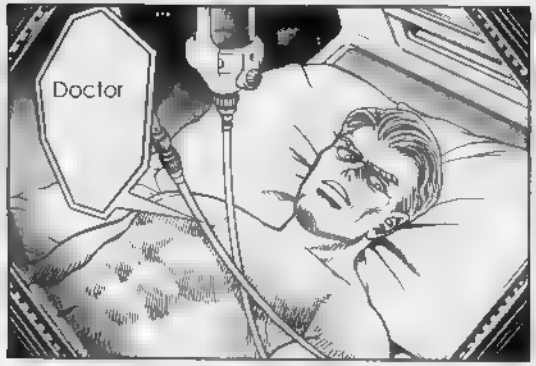
But then
Hayam and the others.
Disobedience or escape results in their death...
The threat of this virus ensured the loyalty and obedience of the scientists.
They were doomed to die the moment they decided to stand up to Chronos...
They did not succeed in reproducing the vaccine
In the letter, they told us that they left their mission in our hands.
they took with them containers full of useful data.
When we left the "Basement"



Hayami and all the other researchers..

Mr. Murakami...
Dr. Odagiri...

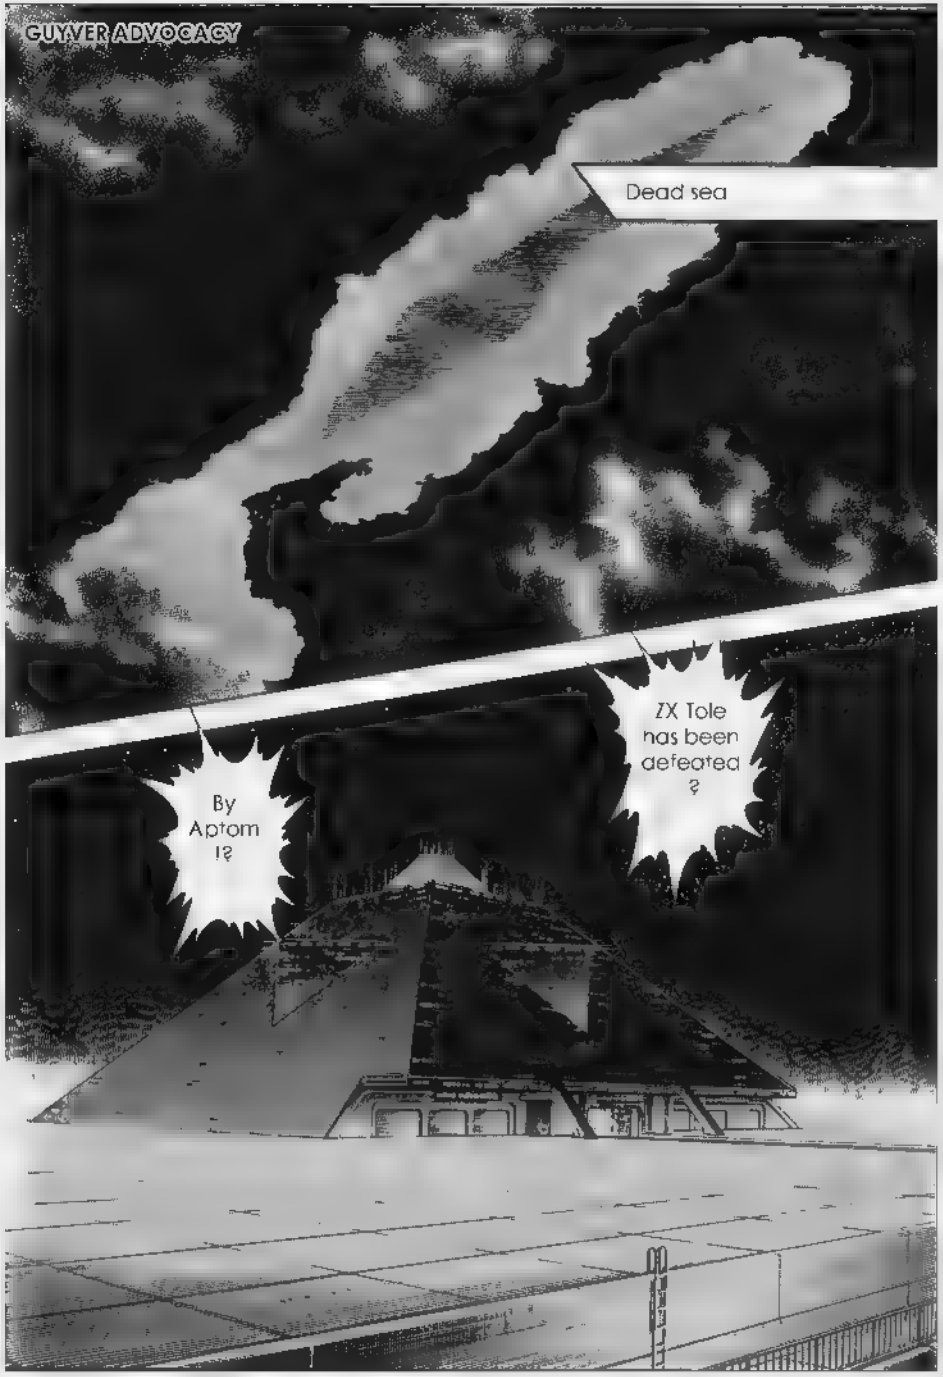
What do you mean you don't know for sure?
Idiot!
My apologies sir.



Doctor

Uhm
His excellence Pulukshteri's calling
And wishes to speak to you urgently

What has happened to you?
Oh Pulukshteri.



Dead sea
By Aptom !?
ZX Tole has been defeated ?

Shin.. We must convene, all twe ve Zoalords.

We must meet in Arizona headquarters!

Sho, have you woken up?

What has happened in Japan?
I was told an immense plasma event was observed in the sk'es over Tokyo.

This should help to explain it...
Here, watch.

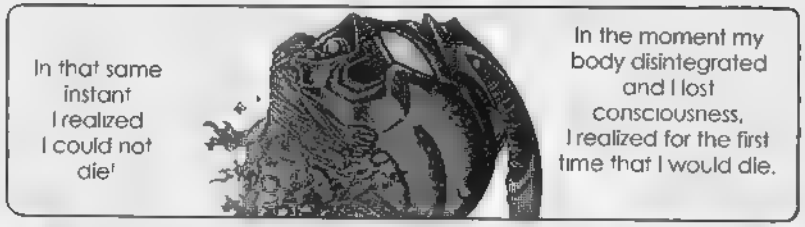
W-what?

!
How are you mr. Fukamachi?
Welcome back
Natsuki?
That's Natsuki.
How do you fee ?
Are you tired at all?
It doesn't seem real to me.
No .
But I st'l can't believe 't...

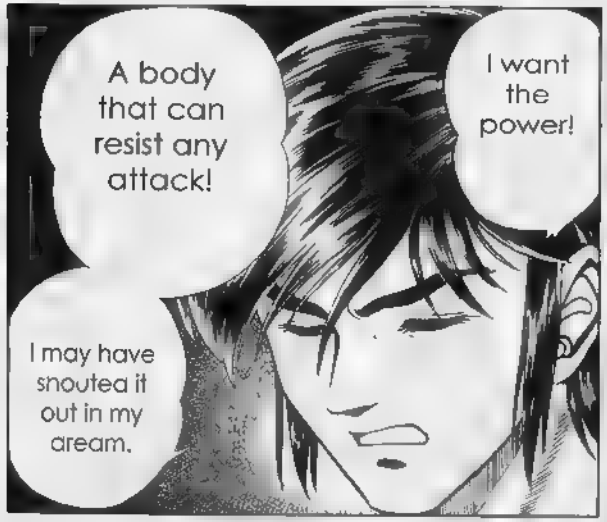
And the world has gone through some major changes.
t must seem like a dream to you
It is true alright... over a year has passed.
You too aren't you, Mizuki?
Very happy
For Sho and Agito to be healthy and safe
I feel very happy, though...
First of all, Chronos is not a secret organization anymore
The situation has really changed in the past year
Also, our strategy has changed...
We have to be even more careful

Like the first time that he became the Guyver.
Or when it regenerated in the Japanese section
.....
It appeared when I called
But .
And it protected us from ZX-Tole's attack.
When at first it did not respond.
True

Mak'sh'ma has organized a res'stance force in America..
However it is, Sho and Mr Makishima have returned healthy and safe..
Hold on.
There's something I still don't get .
Guyver 1 has gained enormous power
Our war has just begun
Uhm
Eh?
How did you turn into that behemoth?
Also, the battle with ZX-Tole may have been unconscious defensive action
Fukamach' may not remember a th'ng



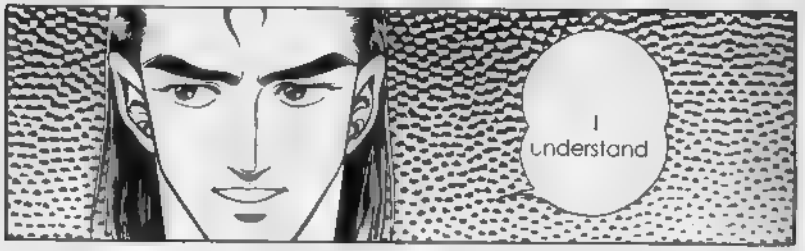
In that same instant I realized I could not die!
In the moment my body disintegrated and I lost consciousness, I realized for the first time that I would die.



A body that can resist any attack!
I want the power!
I may have snoutea it out in my dream.

I would not die - I had to protect Tetsuro and Mizuki
And all the others who are involved

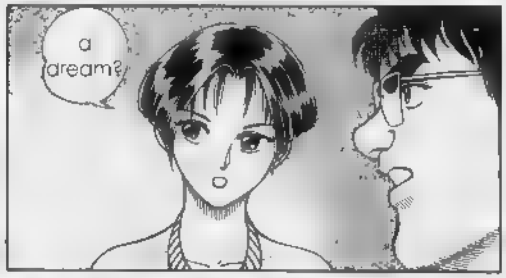
Sho ..



I understand

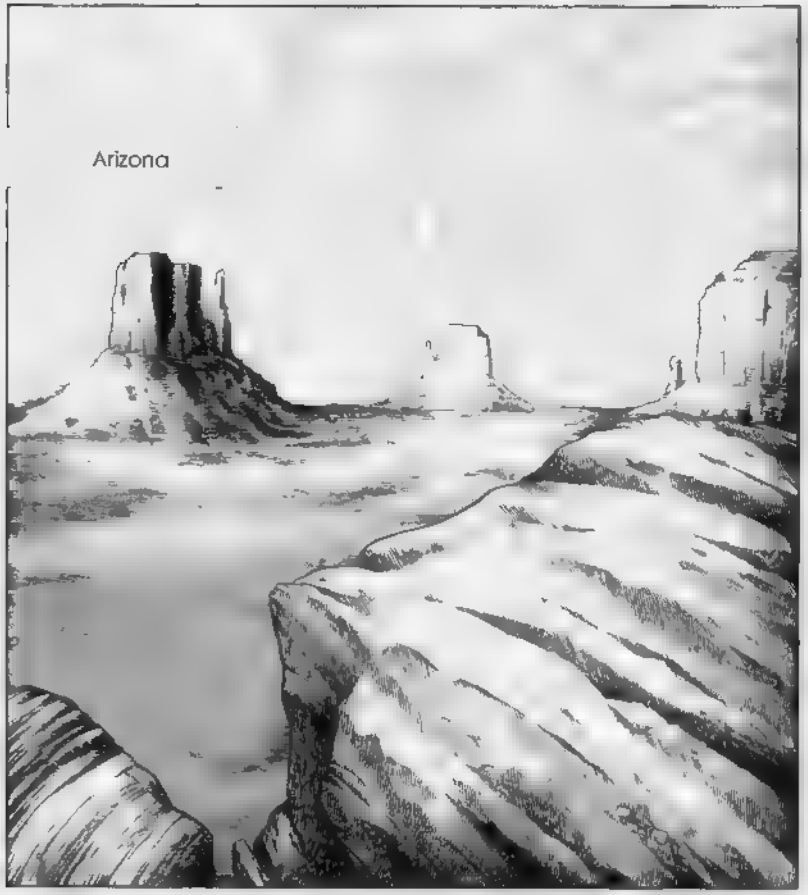
a dream .
nod...

..I th'nk.
It was d'fferent though.

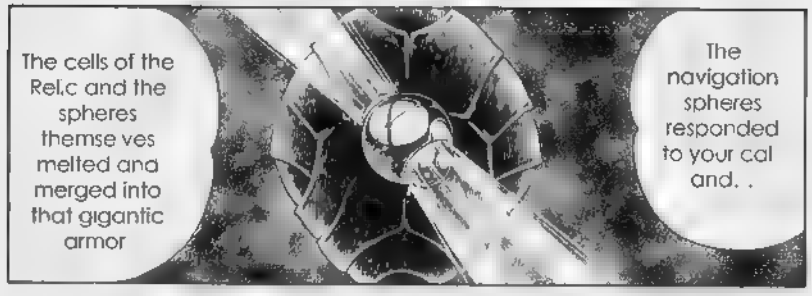


a dream?

In the sky over Mount Minakami, the Megasmash-er blast was deflected by that glowing Zoalord. .
Both me and the relic were de-stroyed. .

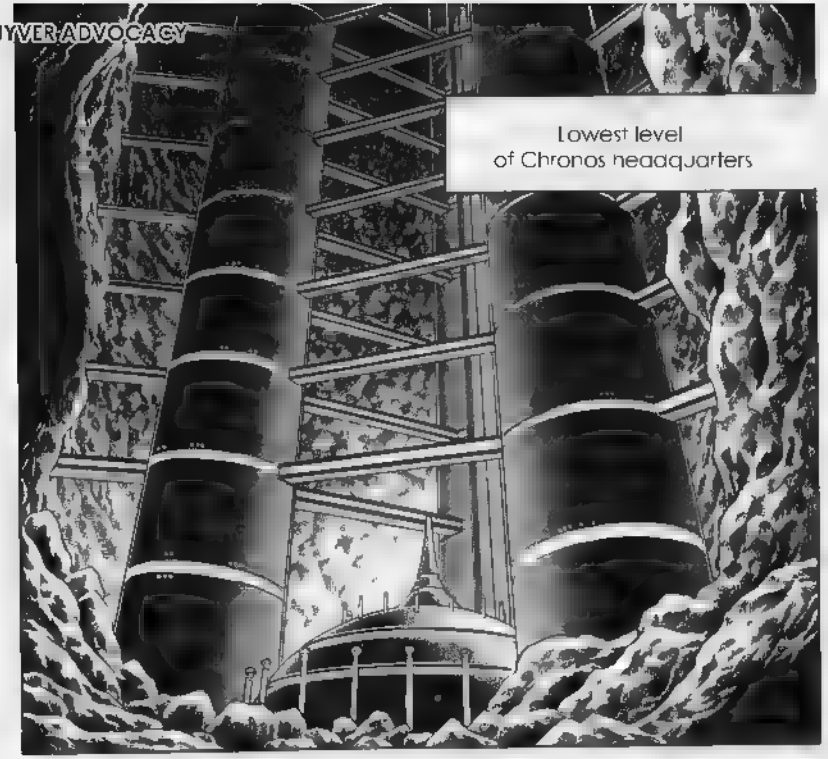


Arizona



The cells of the Relic and the spheres themselves melted and merged into that gigantic armor
The navigation spheres responded to your call and. .

A new Guyver was born to stand in defense of his friends!
To fight the Zoalord...



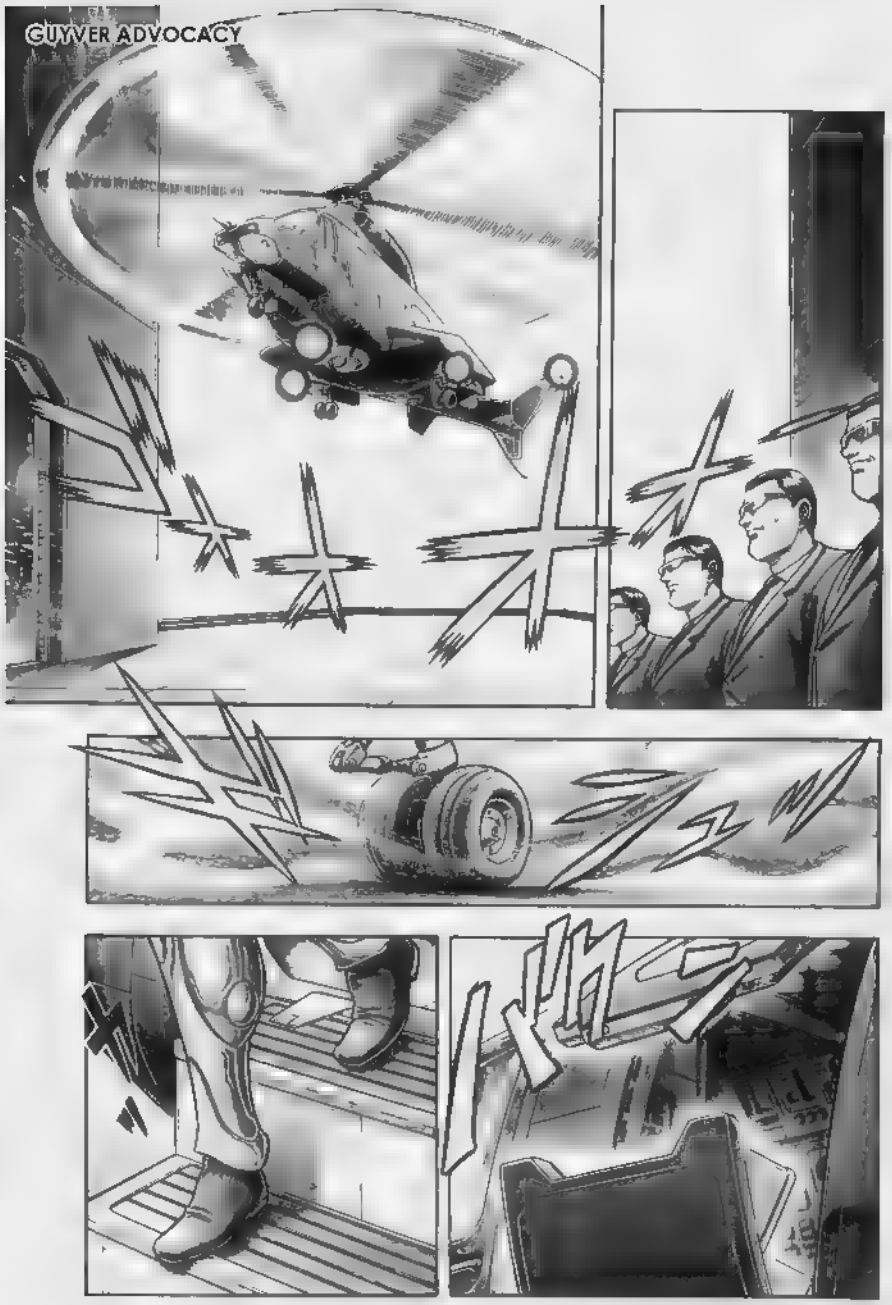
Lowest level
of Chronos headquarters

Room of the celestia sphere
reserved for
meetings of the Zoa ora cou nc

The plasma event in the skies of Shinjuku the other day
Are the work of this accursed thing!
That is to say..
This image was drawn from the memory of Rukshter
But... this?
Guyver Advocacy

The Guyver 's stil al've .?
You mean . . .
That they are st'l alive?
.....
A-
ARCHANFEL
?!

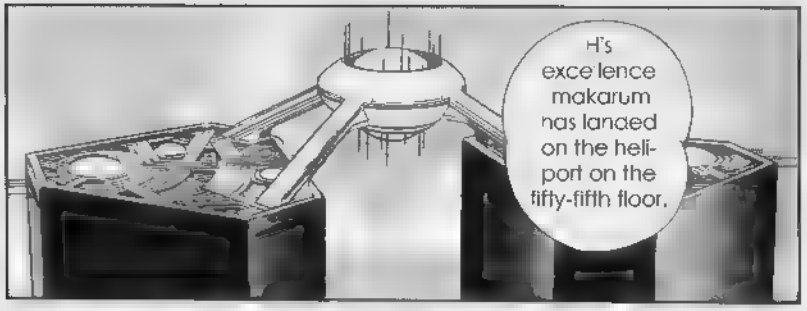
Some more specific data can be v'ewed on the console screen...
Can it be that powerful?
No... it can't be! A power output a hundred times greater than a Guyver's Megasmasher?
But it's form...
It sure y has to do with those accursed Guyvers!
It is obvious that they are connected.
Just before this giant appeared, the mysterious chrysalis vanished from Dead Sea base.



If that is true it is your turn to act..
Interesting ..

13th Zoalora
Imakarum Mirabilis...

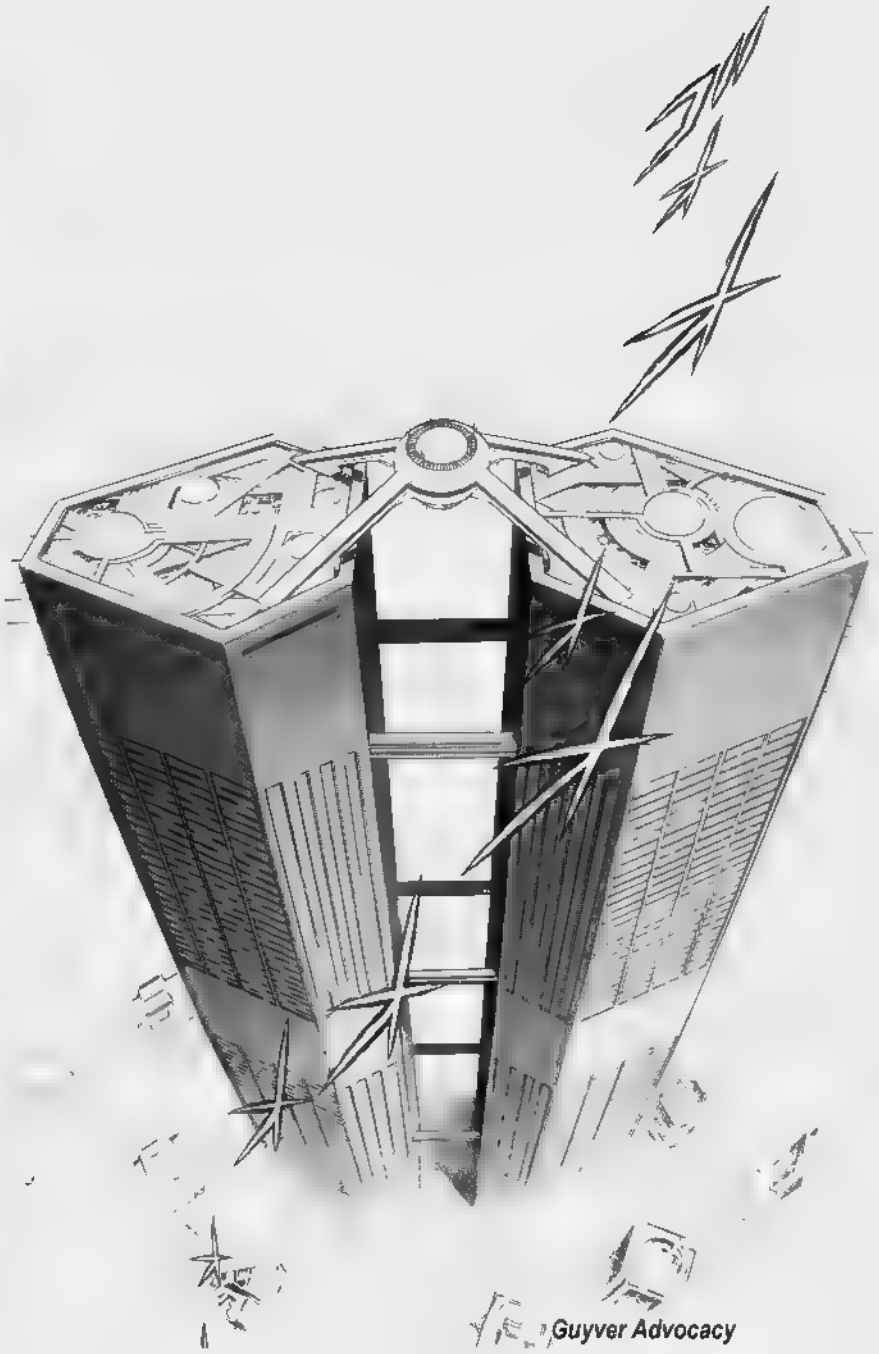
第61話　13人目の獣神将
THE 13TH ZOALORD
Guyver Advocacy



His excellence makarum has landed on the heliport on the fifty-fifth floor.

There is some commotion going on outside...
yes...

Understood!



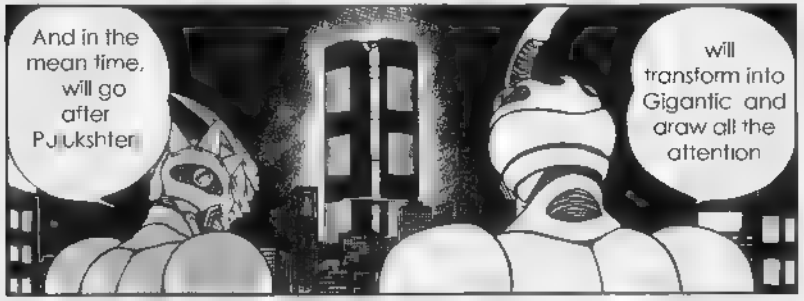
Guyver Advocacy

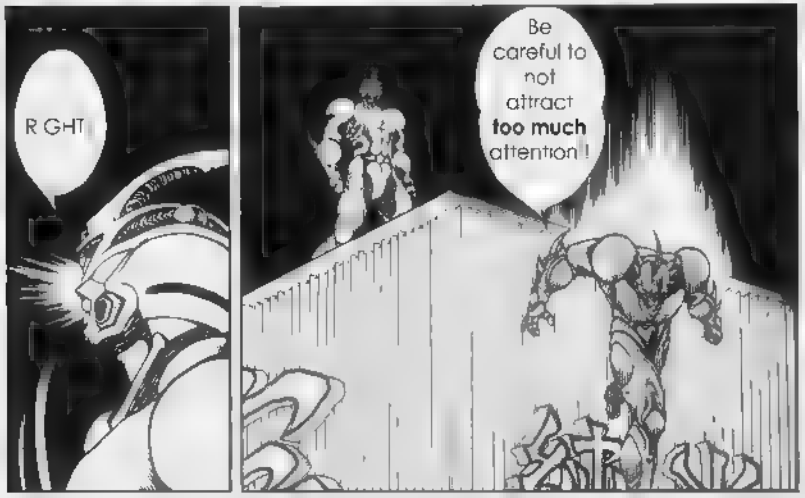
It wasn't a nuclear test was it?
What was that flash that we saw the evening on which martial law was proclaimed?
Calm yourselves
Please, remain calm..
And the terrorists were clearly Zoanoids...
In fact, they were seen to be fighting each other in the sky!

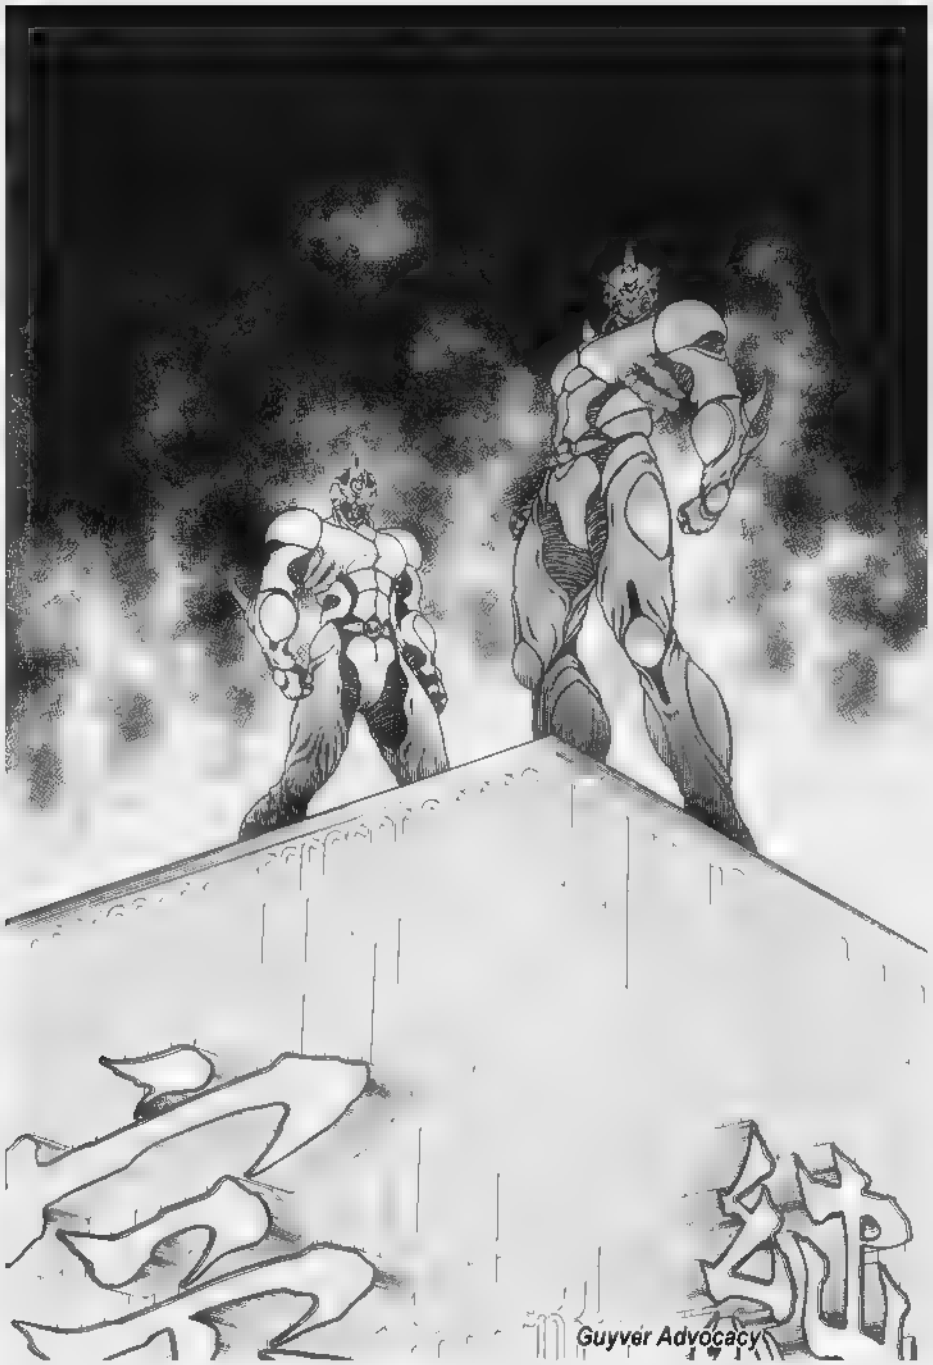
There's no radioactive fallout do not worry
As announced the other day that flash..
Terrorists had set explosives it was necessary for our operative to handle it at a very high altitude
Citizens..
Please do not be confused by baseless rumours...
the zoanoids.. and the "aerial dogfight"..
Uh. Next.
was likely the command center's explosives control squad whilst performing a military manoeuver
there are no zoanoids disturbing the peace.

They can't publicly admit the existence of the Guyvers and Aptom
Those bastards
they're lying to the public any way they can
Good point.
It would shatter the fragile trust they have built up among the people.
We finally have an opportunity to strike back at them..
Indeed..

for a while, he was accompanied by dr.Barcas, but now he is alone
He will be our target
There is a single Zoa ora in Japan, called Pulukshter as far as I know







Guyver Advocacy
